Preschool and Childcare Center

About Us

Alpine Children's Academy is a child care provider with an environment that fosters the mental, emotional, social and physical development of the youth in the community.

We offer early childhood education programs for children ages 6 weeks to 12 years old. We care for infants, toddlers, preschoolers and school-aged children by means of effective nurturing and teaching techniques.

Our center follows a creative curriculum following the state standards providing framework while preparing children for positive growth and development. Classrooms are arranged into academic/learning centers to allow children to make choices and address individual needs.

- ✓ Infant Care
- ✓ Preschool
- ✓ Before and After School
